

# Confused by CRYPTIC CODES on your temperature controller?

## Pro-VU speaks your language

Eliminate the guesswork needed for codes on a LED display, the real text LCD display on Pro-VU gives the complete message at an affordable price

- 5 language options
- Easy set-up wizard
- Profiling & Datalogging options
- Colour change screen on alarms and events (red/green)
- Trending view
- Flexible input/output options
- USB port
- Even a splash screen with your company logo

A 1/4 DIN temperature and process controller with advanced functionality, ProVu is the most versatile, easy-to-use controller available.
